ANA POPOVIĆ

FRONTEND DEVELOPER

PROFESSIONAL SUMMARY

Frontend developer with foundational skills in HTML, CSS, JavaScript, React and Python. Ready to contribute and eager to learn new technologies in a supportive team environment.

WORK EXPERIENCE

CHINGU — PROJECT TEAM

· January 2024

- Conducted testing on external APIs, ensuring their suitability for integration
- Contributed to specification and requirements discussions, utilizing GitHub to set up repositories for tier 1, tier 2, and tier 3 teams
- Compiled a comprehensive JSON file for tier 1 teams
- Gathered data from the National British Museum and creating a public API tailored for the objectives of the upcoming Chingu voyage
- Collaborated closely with team of four, fostering effective communication and ensuring alignment with project goals

CHINGU — FRONTEND DEVELOPER

· January 2024 - March 2024

- Collaborated in an Agile environment with a team of 6 developers, which later streamlined to two due to team members dropping out.
- Led frontend development using React with Vite, taking responsibility for creating a responsive and user-friendly interface.
- Contributed to backend development, utilizing Node.js to support server-side logic and data.
- Successfully completed the development and launch of the CryptoView app, organizing the project into 6 sprints.
- Implemented MongoDB for the database, ensuring efficient data storage and retrieval.
- Played a role in addressing challenges related to team dynamics and deployment issues, showcasing problem-solving skills.

CHINGU — LEAD FRONTEND DEVELOPER

· July 2023 - September 2023

- As the lead developer on a collaborative team of seven, I spearheaded the development of the Meteor Shower App. This experience allowed me to excel in decision-making, Agile software development, and problem-solving.
- We focused on front-end development, utilizing HTML5, CSS, and JavaScript to create a responsive and visually appealing user interface. We also integrated Leaflet.js for interactive maps and Chart.js for data visualization, enhancing the app's functionality.
- Utilized version control with Git and GitHub for streamlined collaborative development
- Working closely with my team, I fostered effective teamwork and communication, ensuring the project's success

LEROMA GMBH — WEB DEVELOPER INTERN

· December 2022 - January 2023

- Building reactive web components with JavaScript and Lit.
- Creating responsive components using HTML, CSS, and Tailwind CSS.
- Developing user interfaces with modern JavaScript, HTML5, and CSS3.
- Collaborating with senior developers to implement new features and enhance website performance.
